### SITE FORM INSTRUCTIONS

- 1) Database unique identifier
- 2) Organization responsible for data collection
- 3) Northerly geographic position of the feature expressed in decimal degrees (WGS 84)
- 4) Westerly geographic position of the feature expressed in decimal degrees (WGS 84)
- 5) Name of roadway (if any) associated with feature
- 6) Milepost (to nearest .01 mile) where feature is located, if applicable
- 7) County in which feature is located
- 8) Water Resource Inventory Area (WRIA) number
- 9) Name of stream where feature is located
- 10) Name of downstream waterbody to which stream is connected
- 11) Location of feature relative to landmarks or driving directions
- 12) Type of instream feature(s) encountered (may select more than one)
- 13) Indicate whether or not stream has potential to support fish life
- 14) Basis for potential fish use determination
- 15) Salmon and trout species that are either known or assumed to be present or historically present
- 16) Concise comments pertinent to operation or characteristics of site being evaluated
- 17) Information about owner of feature(s)
